Northeast Florida has many natural areas. Our butterflies and flowers are beautiful! (Olivia - age: 6)
Our forests help to keep the air clean. We have to be prepared for wildfires. (Chloe - age: 9)
Our marshes are a mixture of water and soil and they are a great place for plants to grow. They protect us from flooding.

(Henry - age: 4)
We could have houses on stilts overlooking the marsh. (Natalie - age: 4)
We could have houses in the marsh that are bolted down but have floating floors. This way, we can be safe and keep an eye on the animals. (Annabelle - age: 6)
We could build a wall and paint it a cool color like yellow to keep everyone safe, including the animals. (Briana - age: 7)
We love our rabbits in Northeast Florida. We could put covers on the rabbit holes so the water doesn't get in. (Coleman - age: 5)
