Planning for Sea Level Rise in the Matanzas Basin
The GTM NERR is comprised of a network of public lands managed by:

• GTM NERR
• Florida Fish & Wildlife Conservation Commission
• Flagler County
• St. Johns River Water Management District
• Florida State Parks
• Florida Forest Service
• National Park Service

A Network of Public Lands

Two Components: Approximately 73,000 Acres
Technical Analyses

Background Info
- Physical, Historical
- Social, Cultural, and Economic

Vulnerability Assessments
- Bathtub Inundation and Storm Surge, Critical Infrastructure
- SLAMM, Shoreline Erosion and Hardening
- Future Development (without sea level rise)

Conservation Design
- Future Development (with sea level rise)
- Habitat and Species Adaptation Corridors

Economic Perspective
Current 3 ft Sea Level Rise
